

Dear Representative,

Please vote NO on the House Bill to eliminate landline phones!

I base my request mainly upon my own, and other peoples' personal health problems. The 'cost' is also to be considered. And, I also heard that the ALEC has been going from state to state writing this legislation -- this can't be good! Each state needs to determine it's Own Needs.

I think this would put way too many people in unsafe situations. What happens in power outages?? Landline phone continue to work! This is Really Important to Michigan's Olsters who use medical safety alert systems! These people built Michigan and they should not be sacrificed to technology now. Access to 911 At All Times is an Urgent Matter!

Dirty EMF's are also a Great Concern and this would only add to the problem! This is a Great Problem that Needs to be Addressed Now!

I know this from personal experience as I recently moved back to Ann Arbor from a country location and immediately had a 'know' in my stomach for no apparent reason, and it would not go away. Also, my ears began to ring, I became very anxious and irritable, again for no apparent reason, my sleep patterns changed from normal to only ~2 hours at a time. I went back to the country location, all all of this went away! I've also experienced a squamous carcinoma had had to have Mohs surgery for the first time in my life, and have heard that EMF's contribute to this.

Again, please vote NO on this, plus any and all bills that come along that endanger our health and welfare.
