

Who Should Control Your Health & Your Home? A Corporation, or You?

Your Health & Your Wallet Are at Stake!

Decide *for yourself* whether a risky technology is installed
on YOUR home or business.

Tell Your State Representative, "Pass HB 4220!"

"No one told us our smart electric meter was so destructive."

Smart electric meters are being installed on homes throughout Michigan. Smart meters:

- **Will raise your electric rates** (peak pricing). (Rates in Oklahoma are already 10x normal at certain hours.)
- Are causing **severe health problems for many people**.
- Are forcing some Michigan residents to **live without heat and electricity**.
- Will have **long-term health consequences** for nearly everyone.
- Allow the utilities to **shut off your appliances at will** (smart-chipping).
- Allow the utilities to **sell your usage data** to the highest bidder. According to the utilities themselves, **the data will be worth more than the electricity they sell you**.
- Cause **appliance short-outs, flickering lights, and fires** (dirty electricity).
- Allow the utility to shut off your power without coming to your home.

Under HB 4220, the Analog Choice Bill, if you want a smart (AMI) meter or digital meter, you can have one. If you don't, this legislation will ensure that homeowners and businesses can say no. **Some people cannot have a smart meter on their home: The health consequences are that severe!**

Some Michigan residents are already **living without heat and electricity because the utility refuses to remove their smart meter** and replace it with the analog meter that has measured electricity for over a century. Call your legislators and the House Energy Committee today.

DTE and Consumers Energy have shut off power to people who are elderly or ill. Consumers Energy had one person thrown in jail.

Call and email the MI House Energy Committee & your state (not national) rep and state (not national) senator today and tell them that you want HB 4220 passed now! Turn this page over for contact info.

**YOUR HEALTH • YOUR MONEY
YOUR HOME • YOUR CHOICE**

Please email or call *all* the committee members. Every member of the Michigan House Energy Policy Committee needs to hear from you! ***Right now, fewer than half the committee members have committed to supporting this bill.*** For a bill to have even a chance of passing, a majority of committee members must support it.

Make sure you also let your own *state* representative and *state* senator know that you care about this bill and want them to support it. Educate your legislators!

Your call or email should be polite and informative. Many legislators know very little about this issue. If the smart meters are making you ill, be sure to tell them that. You can find your state legislators online, or call your public library for their contact info.

Tell the members why the bill is important to you. That's what they need to know.

Members of the House Energy Committee

Below is each member's email address and phone number. If you are in their district, let them know you are their constituent!

DonnaLasinski@house.mi.gov (517) 373-0828, Minority Vice-Chair

RogerHauck@house.mi.gov (517) 373-1789, Majority Vice-Chair

JosephBellino@house.mi.gov (517) 373-1530

DarrinCamilleri@house.mi.gov (517) 373-0855

ScottDianda@house.mi.gov (517)373-0850

BrianElder@house.mi.gov Phone: (517) 373-0158

PatrickGreen@house.mi.gov Phone: (517) 373-1772

BethGriffin@house.mi.gov (517) 373-0839

BeauLaFave@house.mi.gov (517) 373-0156

JamesLower@house.mi.gov (517) 373-0834

JohnReilly@house.mi.gov (517) 373-1798

JimTedder@house.mi.gov (517) 373-0615

TimSneller@house.mi.gov (517) 373-3906

These members have committed to the bill, but it's still important to let them know you want it passed.

TristonCole@house.mi.gov

GaryGlenn@house.mi.gov

TomBarrett@house.mi.gov

LaTanyaGarrett@house.mi.gov

DianaFarrington@house.mi.gov

StevenJohnson@house.mi.gov

You can also submit testimony in support of the bill by emailing the committee clerk at kgawronski@house.mi.gov.

This is in *addition* to writing or calling the members directly. Contacting the members directly is the most important thing to do.
