

## DTE Advanced (Smart) Meters

Harm Your Health  
Invade Your Privacy  
Will Raise Your Electric Rates  
Are Making Many People Sick Right Now!

**DTE's Radio-off OPT-OUT  
Option  
Will Not Protect Your Health  
or Your Privacy**

- People are getting just as sick from the radio-off opt-out meter as the radio-on meter.
- Both types of meters cause dirty electricity to flow through your home.
- Both meters are capable of collecting detailed data on your electrical usage habits.
- These meters are *unnecessary*. The MI Attorney General has fought them, calling them an unproven technology that is wasting taxpayer dollars.

**Lock Your Meter! Stay Safe!**  
Use a shackle lock.

## Leslie and Drew's Story

Here's one of many personal stories illustrating how smart meters can severely affect your health without you knowing it. **Drew, a 16-year-old diabetic boy, had had stable blood sugar levels** since his diagnosis two years earlier. **In July 2012, a smart meter was put on his home.** Neither he nor his mother knew this. **His mom, Leslie, was suddenly unable to sleep** but didn't know why. In late August, after telling friends about her complete insomnia, someone asked her if a smart meter had been put on her home. "What's a smart meter?" she asked.

She discovered the advanced meter, and learned it had been installed the day she became unable to sleep. **Meanwhile, her son was sleeping just fine. But smart meters can be silent killers.** Two months after the meter was put on his home, Drew went to the endocrinologist for his usual check-up. **The doctor told him his blood-sugar levels had shot into the danger zone.**

**Leslie suspected the smart meter might be the cause of their symptoms. She spent months trying to get DTE to take it off their home. DTE refused.** They didn't care. **Finally, she took the smart meter off herself. Drew went back for his checkup a month later, and his blood-sugar levels had returned to a normal range.** Three months later, at his next check-up, they were even better. His mother, meanwhile, was able to sleep again.
